

ATTEND THIS YEAR'S ONA EDUCATIONAL SYMPOSIUM!

2022 SYMPOSIUM MODERATOR – Scott E. Douglas, FONA, FCNRS, FRCNA, GKStE

For more than 30 years, Scott has researched and written many numismatic articles published in coin club journals throughout Canada, the United States, and New Zealand. Scott has been the president or on the executive of numerous numismatic organizations in Canada and the United States. Today, Scott serves on the board of the J. Douglas Ferguson Historical Research Foundation as the Chairman of the Investment Committee and is currently the Chairman of the Canadian Association For Numismatic Education. In 2018, Scott had the honour of receiving the J. Douglas Ferguson Award, the highest distinction in Canadian numismatics. He's also a Fellow of both the ONA and the Royal Canadian Numismatic Association (RCNA). Scott is a Fellow of the Canadian Numismatic Research Society, a past-president, and its current vice-president.

2022 SYMPOSIUM PRESENTERS

Sept. 10, 1 p.m. – Tim Grawey, “19th-Century Coiners, Counterfeiters and Issuers of Unauthorized Tokens.”

You may recognize Tim as a contributor to *Canadian Coin News* for 18 years. He began collecting decimal coins as a child in the early 1960s, and after a long hiatus from the hobby, he returned as an adult to collect pre-Confederation tokens. Tim is a graduate of the University of Waterloo and had a 38-year career in the social services field before retiring in 2014. In addition to CCN, Tim has also authored articles in the RCNA's bimonthly *CN Journal* and *Numismatica Canada*, jointly published by the Canadian Association of Token Collectors (CATC) and Canadian Numismatic Research Society. He facilitated the Zoom presentation (“Spread Eagle Tokens of Lower Canada 1813-15”) for the CATC at

the RCNA's July 2021 virtual convention. Tim's memberships in numismatic organizations include the RCNA, CATC and the Niagara Falls Coin Club.

Sept. 10, 3 p.m. – Paul Johnson, “The Development of Organized Numismatics in Canada.”

The RCNA's long-time executive secretary, Paul will reflect on his experience in the numismatic hobby for over five decades as he celebrates his 57th year in numismatics. After he began collecting coins in 1965, Paul joined both the RCNA (then known as the Canadian Numismatic Association, or CNA) and American Numismatic Association in 1972 before winning the latter group's Outstanding Young Numismatist honour later that year and the same honour from the CNA in 1973. He has held several elected and appointed positions, including second vice-president, Ontario director and finance chairman, in the RCNA, of which he's a life member. He has co-ordinated several book projects and edited the RCNA's

first *Numismatic Correspondence Course*, released in 1995. From the ONA, of which he's also a life member, Paul received the Award of Merit, our association's highest award, in 1985. Since 1988, Paul has also been a governor of the J. Douglas Ferguson Historical Research Foundation, an organization that funds worthy numismatic book projects. In 1995, he was honoured with the highest award in Canadian numismatics, the J. Douglas Ferguson Award. Over the past five decades leading up to the 2022 ONA Educational Symposium, Paul has been a writer, exhibitor, committee chairman and speaker at numerous numismatic functions throughout Canada and the United States.

Sept. 11, 1 p.m. – Stephen Adams,

“Meet Bill – An Introduction to Banknote Collecting.”

As a youngster, Stephen collected Canadian Tire “money,” which was readily available and easily affordable. Growing up with the 1970s Scenes of Canada banknote

series and noticing the subtle differences in the bills provided many opportunities to break into the much more expensive \$1 and \$2 notes that would have otherwise gone towards comic books and soda. Today, Stephen collects the entire decimal series and continues to dabble in “paper” money while watching the many creative changes polymer notes have brought with them in recent years. Stephen serves as the ONA's club services chairman and the vice-president of the Hamilton Coin Society. When he is not trying to find typos in his change, he is a professor of computer science at Mohawk College in Hamilton. ♻️
